

Amendments to the Specification:

Please amend the specification at page 14, line 1 as follows:

Fig. 7 diagrammatically depicts a further embodiment in accordance with the present invention [[; and]],

Fig. 7a shows a three-dimensional illustration of the direction of flow of the refrigerant in the embodiment shown in Figure 7, and

Fig. 8 depicts a heat exchange system.

Please add the following paragraph as the penultimate paragraph on page 25.

Fig. 8 depicts a conventional heat exchange system (see, e.g., U.S. Patent No. 6,434,972) that includes air flow paths 81, 82, air flow control elements 83 in an air delivery device, an evaporator 84, a condenser 85, a housing for receiving an apparatus for heat exchange 86, a compressor 87, an expansion valve 88, and a collector 89.
